

# Amon Hen by Ebob

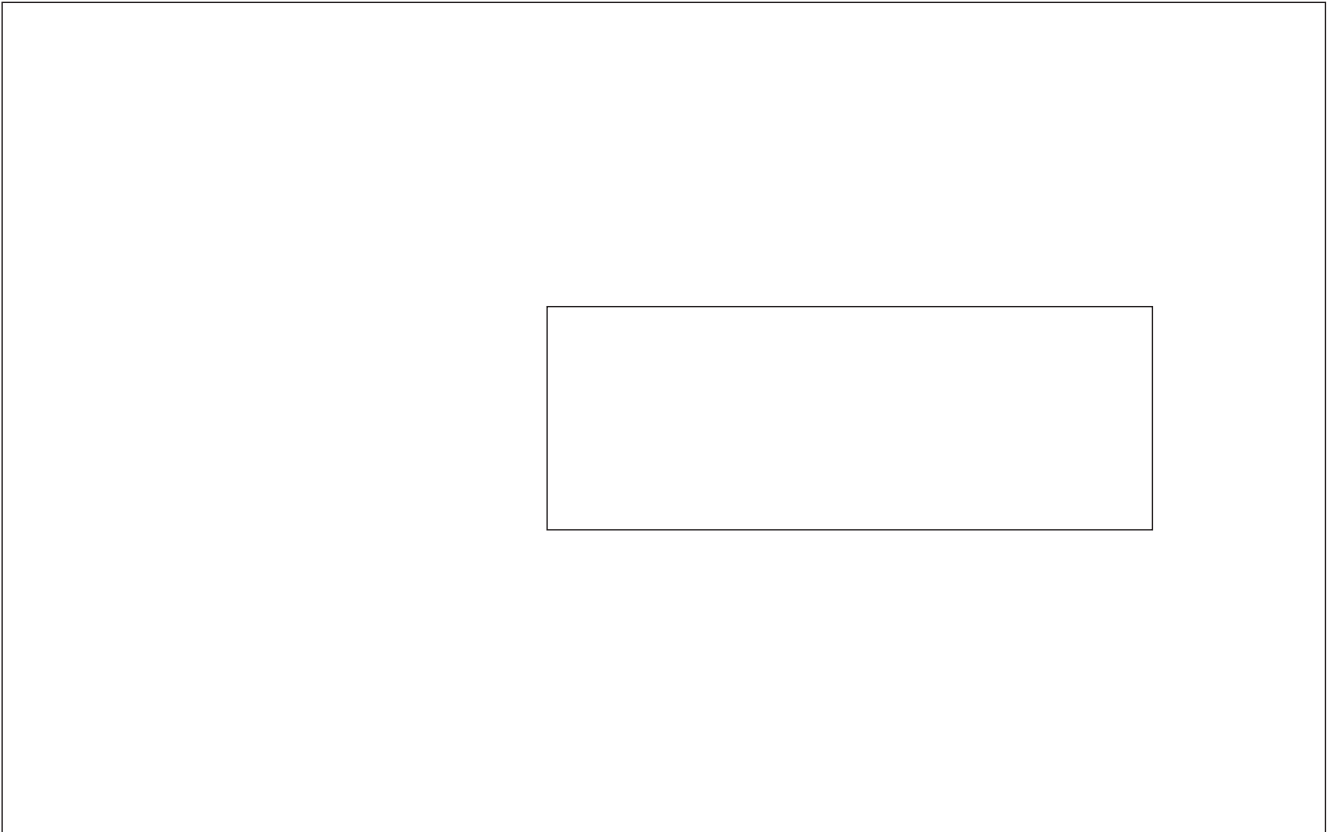

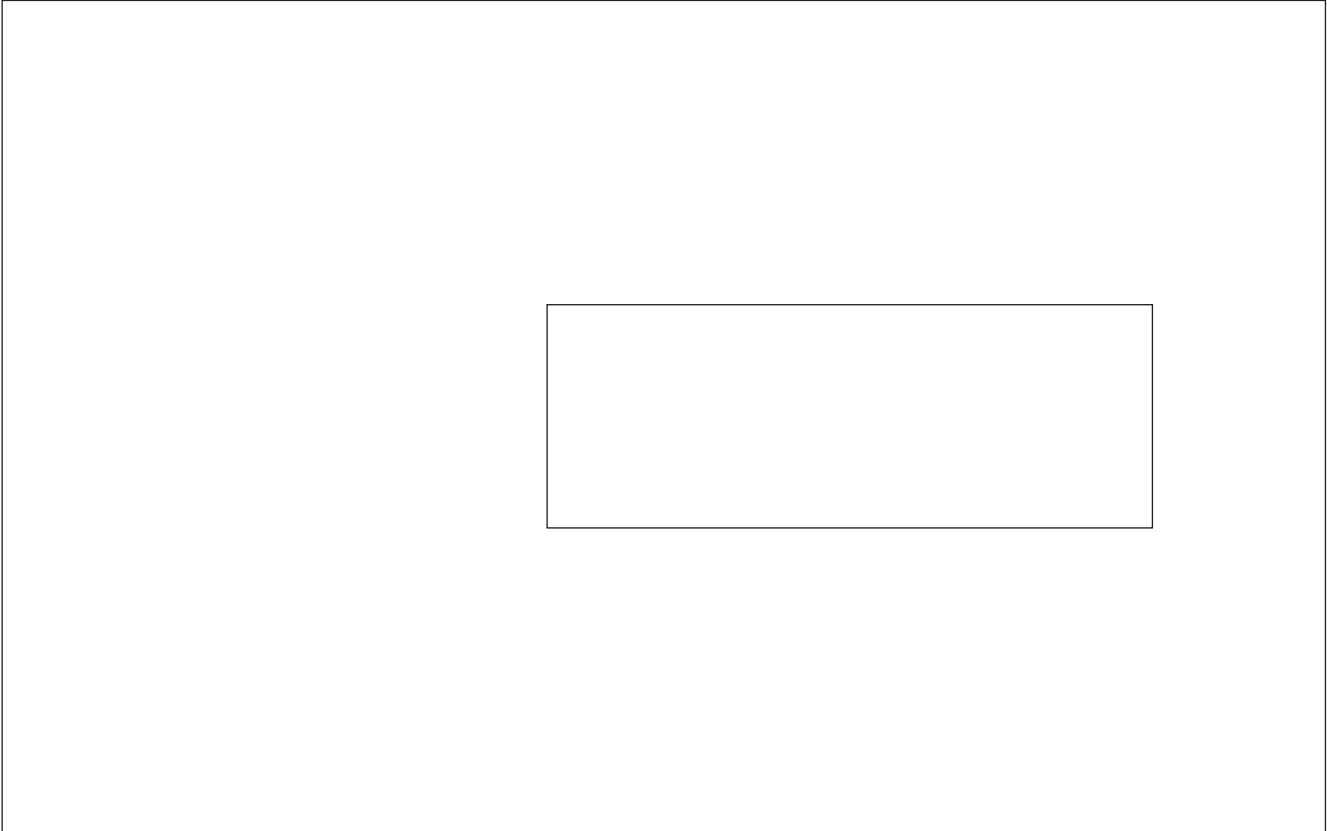

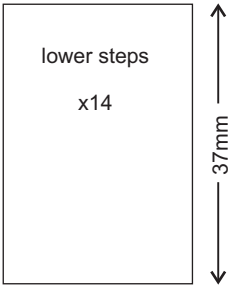

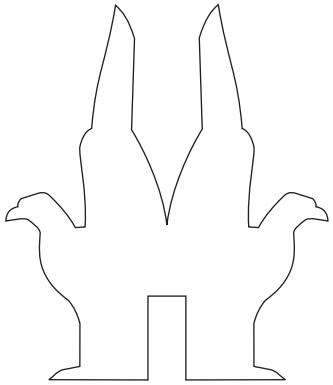

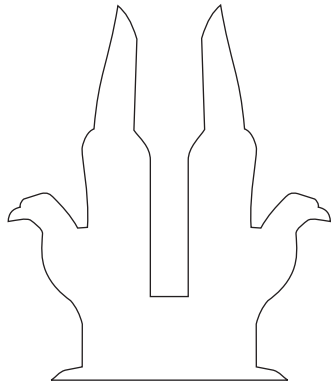

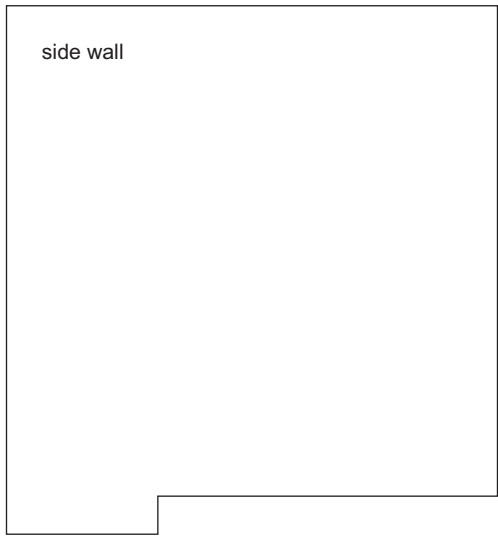

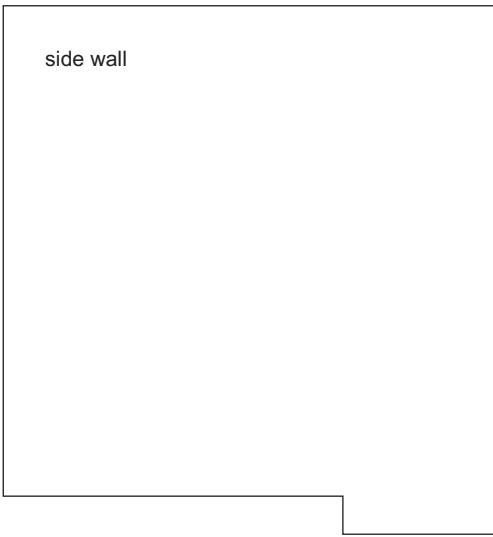

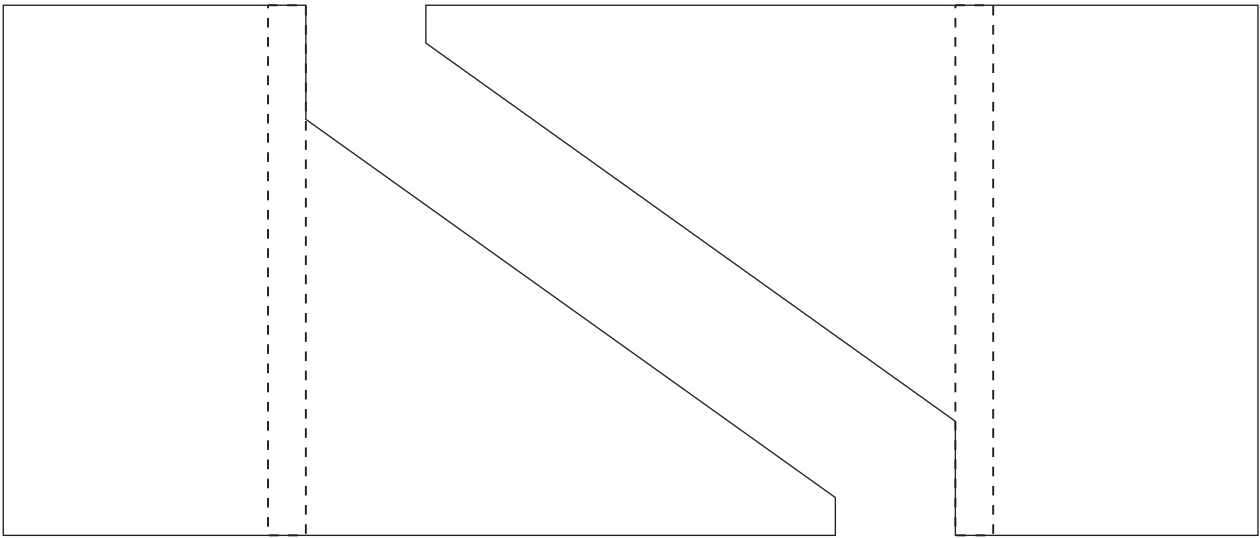

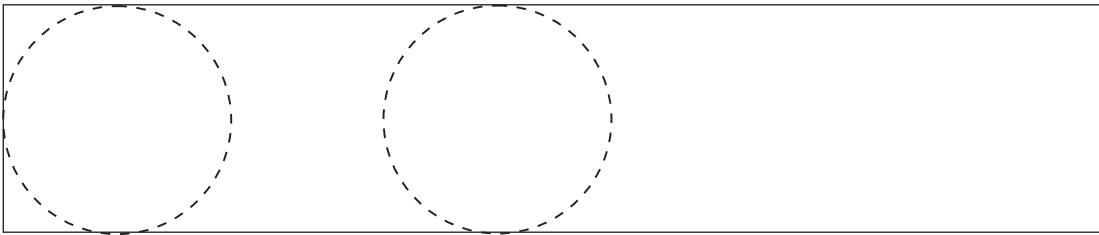

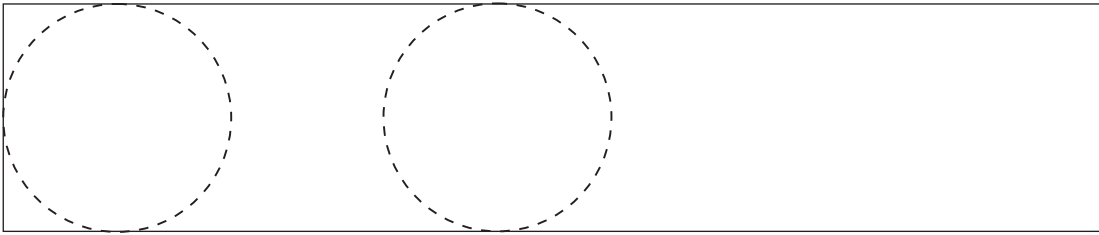

top step

2nd step from top

print A4. Cut out each shape and tack onto 5mm thick Foam Board (available from any good art supply shop or picture framer). Use a sharp knife to cut out the shapes from the foam board. The dotted lines are only there as a guide to help you assemble the sections. The pillars are not supplied in these plans - but should be made 65mm high - Use dowel or purchase plastic pillars from a wedding cake shop. For help email [ebob3ft@yahoo.com](mailto:ebob3ft@yahoo.com)

cut a strip of foam board 37mm wide by 350mm long and chop this into 14 steps each approx 37mmx25mm glue these to form the lower staircase.
